

slang\_AST\_NODES::Operator

```
graph BT; A[slang_AST_NODES::OpExpression] --> B[slang_AST_NODES::Operator];
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a gray-shaded box labeled 'slang\_AST\_NODES::OpExpression'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'slang\_AST\_NODES::Operator'. This indicates that 'slang\_AST\_NODES::OpExpression' inherits from 'slang\_AST\_NODES::Operator'.
